The "Beat Group" era in the 1960s was one of the most influential times in British pop music. After 50 years the music lives on and perhaps for the first time ever, is listened to by all generations. Think : Searchers, Beatles, Kinks, Tremeloes, Merseybeats, Hollies & Many, Many more....This is our tribute to this magical period of popular music.

ZEPHYR-4 aim to recreate this period with harmony vocals and "original" period instruments to create a "60's theme"
